DETAILED ACTION

1. The amendment filed 9/21/05 has been entered.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: Prior art fails to disclose a collimating device for controlling a radiation field of an X-ray radiated from an X-ray radiator, including the method of positioning the device comprising a laser beam generator configured to generate a laser beam which emanates between the first and second plurality of collimating leaves, the laser beam having an axis perpendicular to an axis of the radiated X-ray between the first and second plurality of collimating leaves, as claimed in claims 1 and 19. Prior art fails to disclose a collimating device for controlling a radiation field of an X-ray radiated from an X-ray radiator, including the method of positioning the device comprising a laser beam generator configured to generate at least first and second laser beams, wherein the first laser beam extends along a first axis to intersect the first plurality of collimating leaves and the second laser beam extends along a second axis to intersect the second plurality of collimating leaves, wherein the first and second axis are perpendicular to an axis of the radiated X-ray, as claimed in claims 10 and 20. Prior art fails to disclose a radiotherapy apparatus for radiating an X-ray and concentrating the X-ray towards a predetermined part of an object, the apparatus comprising a laser beam generator configured to generate a laser beam which emanates between the first and second plurality of collimating leaves, the
